

FOUL WEATHER CALL

Foul Weather Call – a tune found in the manuscript of the Welch family of Bosham in West Sussex. The manuscript dates from 1800 although it was added to in subsequent years. Perhaps a predictable choice in February, we've heard this one a few times in the fabulous Wheaty sessions - now it's time to bring it into our common repertoire at the Green Man too. As ever the chords are only a serving suggestion.

Foul Weather Call

Welch MS

X:14

T: Foul Weather Call

C: Welch MS

M:4/4

L:1/8

K: D
